

DEK DF

GROUP Y FUNGICIDE

- Active Ingredient:** 750g/kg Mancozeb
- Poison Schedule:** S5
- Resistant Grouping:** Group Y
- Dangerous Goods Class:** Not classified as a dangerous good under the Australian Code For Transport and Storage of Dangerous Goods in Australia.
- Registered for use In:** All States
- Available In:** 10kg (buckets)
7kg

Dek DF is a water-dispersible granule fungicide that is cost effective to the user. It can be easily mixed with water and is effective against a number of diseases. The 10kg size comes in a plastic bucket which can be reused for mixing purposes.

DIRECTIONS FOR USE

CROP	DISEASE	STATES	RATE	CRITICAL COMMENTS
TURF	Fusarium Rhizoctonia Helminthosporium Algae	All States	200-250g per 25-50 litres of water per 100m ²	Apply when disease symptoms are observed and repeat application every 1-2 weeks as required. Use higher rate and shorter interval for severe infection.
	Anthrachnose	NSW, Vic, SA, WA, ACT only.		

General Instructions

Compatibility: DEK DF should NOT be used with Bordeaux Mixture or Lime Sulphur.

Environmental Information

Dangerous to fish. DO NOT feed grass-cuttings from treated area to animals or poultry. Do not contaminate ponds, streams, rivers or waterways with this product or used container.

Storage and Disposal

Store in the closed original container, in a cool, dry well ventilated area out of direct sunlight. Do not allow to become wet or overheated. This may lead to certain chemical changes, which will reduce the effectiveness of DEK DF as a fungicide and create vapours, which may be flammable. Triple rinse container, adding rinsings to the spray tank and puncture container and dispose of in a sanitary landfill.

Safety Directions

May irritate the eye, nose, throat and skin. Avoid contact with eyes and skin. Do not inhale dust or spray mist. Wash hands after use.

NRA Approval No: 30524
