

POACHEK

GROUP K HERBICIDE

Active Ingredient: 175g/L Endothal present the dipotassium salt

Poison Schedule: S6

Resistance Grouping: Group K

Dangerous Goods Class: 6.1

Registered for use In: All States.

Available In: 5L (4 x 5L per carton),
2L (6 x 2L per carton)

Poachek is a post emergent herbicide to effectively control *Poa annua* (Winter Grass). Consider Poachek to eliminate *Poa annua* that has escaped the use of pre-emergent herbicides.

DIRECTIONS FOR USE

SITUATION	WEEDS	RATE	CRITICAL COMMENTS
Blue couch, common couch, bent, buffalo, and New Zealand Brown Top lawns and turf.	Winter Grass (<i>Poa annua</i>)	150mL per 1000m ²	Apply 2-3 sprays spaced 10-14 days apart in late winter to early spring. Apply as a fine mist spray in 50-100L of water per 1000m ² . For a full sized bowling green (38m x 38m) apply 210mL in 70L water. Apply before seed heads form. Can also be applied in Autumn and early Winter, although new germinations will have to be retreated. Apply when winter grass is becoming evident. One spray may be sufficient.

General Instructions

This product is a selective post emergence herbicide formulated specifically for the control of winter grass. If used on turf heavily infested with winter grass it is important that a programme of sprigging and reseeding be carried out after the treatment. This product is not persistent in the soil and reseeding can take place 2 weeks after application. Large areas of dead winter grass may form a thatch that may be conducive to spread of turf diseases and it is important that a preventative disease control program be carried out also. Do not use when temperature exceeds 25°C. Do not use on Red Fescues or Kikuyu.

Mixing: Poachek mixes readily with water.

Application: For best results use a boom spray application at a pressure and nozzle size that gives small droplets. Even and complete coverage is necessary. Do not use a wetting agent.

Environmental Information

Wash all protective clothing after use. Avoid contact with or drift onto trees and other desirable plants as injury may occur. Do not apply in windy weather. Do not graze livestock on treated areas. Do not feed grass clipping from treated area to poultry or other animals.

Storage and Disposal

Destroy empty container. Wash out sprayer after each days use. Do not store near seed, feed or foodstuffs.

Safety Directions

Product is poisonous if swallowed. Will irritate the eyes and skin. Avoid contact with eyes and skin. Do not inhale spray mist. When preparing the spray wear elbow-length PVC gloves and face shield or goggles. If product on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking wash hands, arms and face thoroughly with soap and water. After each days use, wash gloves, face shield or goggles and contaminated clothing.
